Mastering Multi-Step Word Problems – Teacher Trap

TEKS

R-5.4.B-Represent and solve multistep problems involving the four operations with whole numbers using equations with a letter standing for the unknown quantity.

Certificate

Topic	Warm Up	Worksheets	Practice
R-5.4.B – Solving multi-step problems with parentheses (smaller numbers)	I have/I need – 20 Draw a card then figure out how much you would have to add to that card to get to 20. For example, if I have 2, I need 18. (Ace = 1, jack = 11, Queen = 12, King = 13)	R-WNO-5.4.B - MS probs with parens - Smaller Numbers - SQWS	Pay up
R-5.4.B – Solving multi-step problems with parentheses (larger numbers)	I have/I need – 25 Draw a card then figure out how much you would have to add to that card to get to 20. For example, if I have 2, I need 18. (Ace = 1, jack = 11, Queen = 12, King = 13)	R-WNO-5.4.B - MS probs with parens - Larger Numbers - SQWS	Pay Up
R-5.4.B – Multi-step Word Problems with the Four Operations (smaller numbers)	I have/I need – 30 Draw a card then figure out how much you would have to add to that card to get to 20. For example, if I have 2, I need 18. (Ace = 1, jack = 11, Queen = 12, King = 13)	R-WNO-5.4.B - MSWP - 4 operations - smaller numbers - SQWS	Pirate

R-5.4.B – Multi-step Word Problems with the Four Operations (larger numbers)	I have/I need – 35 Draw a card then figure out how much you would have to add to that card to get to 30. For example, if I have 2, I need 28. (Ace = 1, jack = 11, Queen = 12, King = 13)	R-WNO-5.4.B - MSWP - 4 operations - larger numbers - SQWS	Multigame Cards
R-5.4.B – Multi-step Word Problems with the Four Operations - STAAR	I have/I need – 40 Draw a card then figure out how much you would have to add to that card to get to 20. For example if I have 2, I need 48. (Ace = 1, jack = 11, Queen = 12, King = 13)	R-5.4.B - MSWP 4 operations - STAAR - 4IAR - 11.12.21	Multigame Cards
