

Unit: 4th – Geometry

Lines & Angles 4-In-A-Row

Materials:

- Element Cards
- Word Cards
- 4-In-A-Row Game Board (Pizza Box)

To Play:

Shuffle the element cards and place a card, face up, in each space on the Gameboard.

Shuffle the word cards and put them in a stack face down where everyone can reach them.

Player 1 draws the top word card – you may claim any card on the gameboard that matches the word you have drawn. Once you have claimed a card, write your initials in the space where the card was. Then it is Player 2's turn to draw a word card and claim a space on the gameboard.

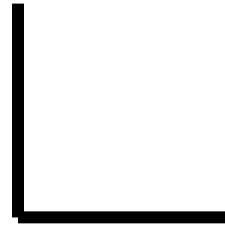

If you draw a “wild” card, you can use it to claim any space that still has an element card – but you must name the element.

If you draw a word card, and there are no matching elements on the game board – it is the next person's turn.

To Win:

First player to get 4-in-a-row in any direction (Including diagonal) wins. If you claim all the squares on the gameboard, and no one has 4-in-a-row, then the person with the most squares wins.

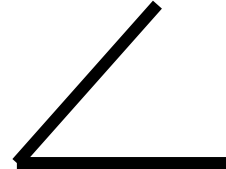

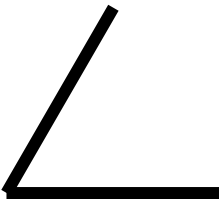

Print: One-sided
