

Dominos

Object of the game: to have the fewest dominos at the end of the game.

To Play:

Shuffle the cards and put them in a stack with the question side up where everyone can reach them.

Turn one card over (with the domino side up) and put it in the middle of the playing area. This is the starter domino.

First player draws a card and answers the question. If correct, turn it over to play the domino. If incorrect put it back at the bottom of the stack, draw another until player gets one correct.

When correct turn over the card to play the domino. If either end matches one of the ends of the starter domino, place it end to end with the starter. If neither end matches it becomes part of that player's hand. The player can place it where they can easily see it for future rounds.

Then it is the next player's turn.

For all following rounds, players can either use one of the dominos from their "hand" or, if none of those matches, the player will draw another card and answer it. If that card matches one of the exposed ends of the dominos that have already been played, the player can play it. If not, it goes in the player's hand.

The game ends when all the dominos have been used and no one can play a domino.

To Win: The player with the fewest dominos in his/her hand when the game ends is the winner.

Note: Most times the dominos will be played in a straight line, with the matching ends together. However, if the domino is a double (the same on both ends), that domino can be laid crosswise. Players can play off of either end or the middle.

5.2.B – Comparing & Ordering Decimals

Dominos

Hint: Add zeroes to the end so that decimals have the same number of digits. That makes them easier to compare. For example, it is easier to see that 0.800 is greater than 0.795 than to see that 0.8 is greater than 0.795.

1 B. $0.438 < 0.483$	2 B. $19.795 > 19.8$	3 B. 6.02	4 C. Third	5 B. $4.003 > 4.03$	6 C. $6.4 < 6.51 < 6.387 < 6.995$
7 B. Y, X, Z	8 B. $<$	9 C. $2.65 > 2.675$	10 A. $26.5 > 26.05$	11 D. $0.060 = 0.060$	12 D. 418.63
13 D. $0.283 > 0.229$	14 B. $1.35 < 1.3$	15 D. 4.028	16 C. Third	17 C. $6.003 > 6.03$	18 A. $2.4 < 2.51 < 2.387 < 2.995$
19 D. C, A, B	20 A. $>$	21 D. $2.65 > 2.675$	22 B. $10.5 > 10.1$	23 D. $0.030 = 0.03$	24 B. 417.97
25 D. $0.329 < 0.33$	26 B. $29.795 > 29.8$	27 A. 7.025	28 C. Third	29 B. $3.003 > 3.03$	30 D. $7.51 < 7.387 < 7.995 < 7.996$

1. The table shows the masses of four rocks. Which number sentence correctly compares the masses of two of the rocks?

- A. $0.429 > 0.438$
- B. $0.438 < 0.483$
- C. $0.429 > 0.43$
- D. $0.438 = 0.43$

Rock	Mass (kg)
S	0.429
T	0.438
U	0.43
V	0.483

5.2.B – Comparing & Ordering Decimals – Dominos

2. The table shows the times it took four runners to finish a race. What comparison of these times is NOT correct.

- A. $20.3 < 20.35$
- B. $19.795 > 19.8$
- C. $19.8 < 20.3$
- D. $20.35 > 19.795$

Runner	Time (minutes)
W	20.3
X	19.795
Y	20.35
Z	19.8

5.2.B – Comparing & Ordering Decimals – Dominos

3. Two numbers are shown. A number between is missing.

6.027 6.009

Which number can be placed in the books to show the numbers in order from greatest to least?

- A. 6.25
- B. 6.02
- C. 6.005
- D. 6.028

5.2.B – Comparing & Ordering Decimals – Dominos

4. Four students are traveling to a math contest. The table shows the weights of four students' suitcases. In what position would Juan's suitcase be if the weights of the suitcases in pounds were ordered from greatest to least?

- A. First
- B. Second
- C. Third
- D. Fourth

Student	Weight of Suitcase (pounds)
Juan	21.605
Tiana	24.8
Kimberly	21.48
Emanuel	24.75

5.2.B – Comparing & Ordering Decimals – Dominos

5. Which inequality is NOT true?

- A. $65.7 < 67.54$
- B. $4.003 > 4.03$
- C. $26.4 < 26.48$
- D. $0.91 > 0.097$

5.2.B – Comparing & Ordering Decimals – Dominos

6. Which list shows the numbers NOT in order from least to greatest?

- A. $4.036 < 4.08 < 4.2 < 4.201$
- B. $3.09 < 3.1 < 3.607 < 3.9$
- C. $6.4 < 6.51 < 6.387 < 6.995$
- D. $7.315 < 7.38 < 7.406 < 7.5$

5.2.B – Comparing & Ordering Decimals – Dominos

7. Elias has three containers of cooking oil. The table shows the volume of cooking oil in each container. Which list shows the containers in order from least to greatest volume in liters?

- A. X, Y, Z
- B. Y, X, Z
- C. Z, Y, X
- D. Z, X, Y

Container	Volume (L)
X	0.946
Y	0.502
Z	1.42

5.2.B – Comparing & Ordering Decimals – Dominos

8. A scientist compared these two measurements.

13.068 kg 13.608 kg

Which symbol makes this comparison true?

- A. >
- B. <
- C. =
- D. +

5.2.B – Comparing & Ordering Decimals – Dominos

9. Which comparison is NOT true?

- A. $3.375 > 3.275$
- B. $6.875 < 6.9$
- C. $2.65 > 2.675$
- D. $7.675 < 7.75$

5.2.B – Comparing & Ordering Decimals – Dominos

10. The table shows the times in seconds it took four swimmers to complete a race. Which inequality correctly compares two of these race times?

Swimmer	One	Two	Three	Four
Time (Seconds)	26.15	26.5	26.1	26.05

- A. $26.5 > 26.05$
- B. $26.15 > 26.5$
- C. $26.1 < 26.05$
- D. $26.15 < 26.1$

5.2.B – Comparing & Ordering Decimals – Dominos

11. Joshua compared the values of these decimals.

0.06 0.6 0.006 0.060

Which statement correctly compares two of these numbers?

- A. $0.6 < 0.06$
- B. $0.006 > 06$
- C. $0.6 = 0.06$
- D. $0.060 = 0.060$

5.2.B – Comparing & Ordering Decimals – Dominos

12. Books in a library are arranged by their Dewey decimal number. The Dewey decimal numbers for five books are shown.

Lana will put these books in order from the least number to the greatest number. Which book will be in the fourth position?

- A. 419.018
- B. 417.97
- C. 418.537
- D. 418.63

5.2.B – Comparing & Ordering Decimals – Dominos

13. The table shows the weights of four earth worms. Which number sentence correctly compares the weights of two of the worms?

- A. $0.229 > 0.238$
- B. $0.238 < 0.23$
- C. $0.23 > 0.283$
- D. $0.283 > 0.229$

Worm	Weight (grams)
S	0.229
T	0.238
U	0.23
V	0.283

5.2.B – Comparing & Ordering Decimals – Dominos

14. The table shows the times it took four goats to eat all the brush on an acre of land. What comparison of these times is NOT correct.

- A. $0.8 < 1.35$
- B. $1.35 < 1.3$
- C. $0.795 < 0.8$
- D. $1.3 > 0.795$

Goat	Time (days)
W	1.3
X	0.795
Y	1.35
Z	.0.8

5.2.B – Comparing & Ordering Decimals – Dominos

15. Two numbers are shown. A number between is missing.

4.057 4.006

Which number can be placed in the box to show the numbers in order from greatest to least?

- A. 4.25
- B. 4.08
- C. 4.005
- D. 4.028

5.2.B – Comparing & Ordering Decimals – Dominos

16. Four goats were having a high jump contest. The table shows the height of jumps in feet for the goats. What place did Gertie come in if the jumps are placed in order from highest to lowest?

- A. First
- B. Second
- C. Third
- D. Fourth

Goat	Height of Jump (feet)
Gertie	11.605
Griselda	12.8
George	11.48
Otis	12.75

5.2.B – Comparing & Ordering Decimals – Dominos

17. Which inequality is NOT true?

- A. $85.7 < 87.54$
- B. $46.4 < 46.48$
- C. $6.003 > 6.03$
- D. $0.71 > 0.077$

5.2.B – Comparing & Ordering Decimals – Dominos

18. Which list shows the numbers NOT in order from least to greatest?

- A. $2.4 < 2.51 < 2.387 < 2.995$
- B. $9.036 < 9.08 < 9.2 < 9.201$
- C. $8.315 < 8.38 < 8.406 < 8.5$
- D. $1.09 < 1.1 < 1.607 < 1.9$

5.2.B – Comparing & Ordering Decimals – Dominos

19. Wanda the Witch has three jars of her famous love potion. The table shows the volume of love potion in each jar. Which list shows the jars in order from least to greatest volume in liters?

Jar	Volume (L)
A	1.946
B	2.42
C	1.502

- A. A,B,C
- B. B,A,C
- C. C, B, A
- D. C, A, B

5.2.B – Comparing & Ordering Decimals – Dominos

20. A scientist compared these two measurements.

25.509 kg 25.059 kg

Which symbol makes this comparison true?

- A. >
- B. <
- C. =
- D. +

5.2.B – Comparing & Ordering Decimals – Dominos

21. Which comparison is NOT true?

- A. $6.875 < 6.9$
- B. $3.375 > 3.275$
- C. $7.675 < 7.75$
- D. $2.65 > 2.675$

5.2.B – Comparing & Ordering Decimals – Dominos

22. Muscular Marvin timed himself at the 100-meter dash for 4 days in a row. The chart shows the results. Which inequality correctly compares two of Marvin’s times?

	Day One	Day Two	Day Three	Day Four
Time (Seconds)	10.15	10.5	10.1	10.05

- A. $10.15 < 10.5$
- B. $10.5 > 10.1$
- C. $10.5 < 10.05$
- D. $10.15 < 10.1$

5.2.B – Comparing & Ordering Decimals – Dominos

23. Marianne compared the values of these decimals.

0.03 0.3 0.003 0.030

Which statement correctly compares two of these numbers?

- A. $0.3 < 0.03$
- B. $0.003 > .03$
- C. $0.3 = 0.03$
- D. $0.030 = 0.03$

5.2.B – Comparing & Ordering Decimals – Dominos

24. Books in a library are arranged by their Dewey decimal number. The Dewey decimal numbers for five books are shown.

Robert will put these books in order from the least number to the greatest number. Which book will be in the second position?

- A. 419.018
- B. 417.97
- C. 418.537
- D. 418.63

5.2.B – Comparing & Ordering Decimals – Dominos

25. The table shows the weights of four hamsters. Which number sentence correctly compares the masses of two of the hamsters?

Hamster	Weight (ozs)
Sam	3.529
Tom	3.538
Ulysses	3.53
Virginia	3.583

- A. $0.338 = 0.33$
- B. $0.329 > 0.338$
- C. $0.338 > 0.383$
- D. $0.329 < 0.33$

5.2.B – Comparing & Ordering Decimals – Dominos

26. The table shows the times it took four slugs to finish a race. What comparison of these times is NOT correct.

Slug	Time (hours)
W	30.3
X	29.795
Y	30.35
Z	29.8

- A. $30.3 < 30.35$
- B. $29.795 > 29.8$
- C. $29.8 < 30.3$
- D. $30.35 > 29.795$

5.2.B – Comparing & Ordering Decimals – Dominos

27. Two numbers are shown. A number between is missing.

7.027 7.009

Which number can be placed in the box to show the numbers in order from greatest to least?

- A. 7.025
- B. 7.1
- C. 7.005
- D. 7.028

5.2.B – Comparing & Ordering Decimals – Dominos

28. Four hippos are having a high jump contest. The table shows how high each hippo jumped in inches. In what place would Mo Mo be if heights of the jumps in inches were ordered from greatest to least?

Hippo	Height of Jump (inches)
Mo Mo	1.605
Toe Toe	4.8
K-Jo	1.48
El Bo	4.75

- A. First
- B. Second
- C. Third
- D. Fourth

5.2.B – Comparing & Ordering Decimals – Dominos

29. Which inequality is NOT true?

- A. $55.7 < 57.54$
- B. $3.003 > 3.03$
- C. $16.4 < 16.48$
- D. $0.81 > 0.087$

5.2.B – Comparing & Ordering Decimals – Dominos

30. Which list shows the numbers NOT in order from least to greatest?

- A. $8.315 < 8.38 < 8.406 < 8.5$
- B. $5.036 < 5.08 < 5.2 < 5.201$
- C. $4.09 < 4.1 < 4.607 < 4.9$
- D. $7.51 < 7.387 < 7.995 < 7.996$

5.2.B – Comparing & Ordering Decimals – Dominos
