

5.3.B - 2 X 3 mult – Super Battle

Materials needed:

- 2 X 3 super battle game cards – one for each player
- Deck (or multiple decks) of cards with face cards & 10's removed. Ace = 1. Does not have to be full decks.
- Dry erase board/markers/erasers

To play:

Shuffle the cards and place them face down in a stack where everyone can reach them.

Players take turns drawing cards and writing the number of the card in one of the spaces outlined in bold on their Super Battle game board. Once a number is written in a space, it cannot be changed. Once a player has used a card, place the card in the “pot” in the middle.

When all the players have filled in all the places on their card, they should work their problems. The player with the highest product wins all the cards in the pot.

Note: You have to work the problem to win the cards – even if you can tell that you are going to win because of the numbers.

To win: Play until you are out of cards or until time is up. The player who has won the most cards from the pot wins.
