Taco-Burger-Pizza-Drink (TBPD)

Object of the Game: Be the first to collect four each of Tacos, Burgers, Pizzas, and Drinks.

Materials needed:

- TBPD Game Board (Pizza Box)
- 6-sided Dice
- Game pieces one for each player.

To play:

Separate the cards into piles according to the food on the back. Stack them face down with the food side showing.

Each player places her game piece somewhere on the board on either a Taco, a Burger, a Drink or a Pizza Slice. It doesn't matter where.

Player 1 rolls the die.

- Roll a 1 or 6 and you lose your turn.
- Otherwise, move your game piece the number of spaces indicated on the dice in any direction to try to land on the food you want. Answer the question on the card correctly to keep it. For example, a player might land on a Taco. She draws a card from the Taco pile and answers it. If she answers correctly, she keeps the Taco.

Player 2 does the same and so on.

To win:

The first player to collect 4 of each kind of card wins.

For a shorter game, just collect 2 of each kind of food.

Printing: 2-sided, landscape, black & white
